She was sitting on a park bench in Du Pont Circle yesterday afternoon when he approached and dropped into the seat beside her.

She glanced at him coyly, and blushed. He made some light remark about the weather and placed an arm about her neck. Then he kissed her—a resounding smack. She showed no embarrassment.

Nor did any one else. A passing policeman gazed at them and grinned. A nursemaid, passing, waved her hand at them.

For he was seven and she was five and it was a beautiful spring afternoon in Du Pont Circle—just the time for the children to play.

**FLAG TIDAL WAVE
SWEEPS CAPITAL**

**Makers of Banners Swamped
by Orders for American and
Allies' Insignia.**

A tidal wave of flags has swept over this city.

The summer awning business—usually a substantial factor in flag makers' calculations—has been temporarily sidetracked.

The Stars and Stripes are in demand everywhere. One flag dealer declared this morning that he is 27,000 flags behind in his orders, in spite of the fact that his shop is running to capacity all the time. He requires twelve hours to meet an order for one flag.

With the announcement that Foreign Secretary Balfour of England and former Premier Viviani of France will be here within a few days, orders for the tricolor and the Union Jack have increased tremendously, and added to the troubles of the flag-makers. The most impressive exhibition of the banners of England, France and America is now to be seen along aristocratic "Embassy Row," on Sixteenth street north of U street. Nearly all the palatial buildings along this street fly huge American

**Lemons Whiten the
Skin Beautifully!
Make Cheap Lotion**

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quart of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold cream. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness, and tan, and is the ideal skin softener, smoother, and beautifier. Just try it! Make up a quart of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms, and hands. It should naturally help to whiten, soften, freshen, and bring out the hidden roses and beauty of any skin. It is wonderful for rough, red hands. Your druggist will sell three ounces of orchard white at little cost, and any grocer will supply the lemons. Adv.

flags, between emblems of France and England.

When the British and French commissioners reach Washington they will find the Government buildings of this city draped with the emblems of their nations in honor of the visit. This announcement was made today by Col. W. W. Harris.

Individuals are wearing insignia of France and England with small flags of the United States. These pins are sold by hundreds and the demand has more than kept pace with the supply.

MARKET SPECIALIST NAMED.

Brazilian markets for metal and woodworking machinery are to be investigated by Special Agent Robert Grimshaw, appointed today by the Bureau of Foreign and Domestic Commerce of the Department of Commerce.

Brazil has never used machinery extensively in the past, but it is felt that a new period of development is setting in, and that the demand for such equipment will develop rapidly.

THE PULLMAN COMPANY**

Coast to Coast. Through the far-reaching service of the Pullman Company it is often possible to arrange a railroad journey so that the night may be spent on the train, thus effecting a saving in hotel accommodations and the hours unnecessarily used for day time travel.

The Pullman car includes in its construction not only the asset of increased safety, but every convenience afforded by the most modern hotel that can possibly be adapted to the limitations of car construction. And the service further includes the personal attention of employees trained to anticipate the individual requirements of the traveling public.

In the deserts of the Southwest; in the western mountains; in rural communities throughout the country, everywhere, wherever he may board a Pullman, the same high standard of service that he would find in a Pullman car leaving the terminal of the great metropolis.

Standardized and extended to serve in equal measure travelers in practically every community, the facilities which the Pullman Company affords for convenience, safety and comfort are equalled by no other similar organization in the world.
